

Personnel Lift Parts

Parts for Personnel Lifts - Raising personnel to overhead racks or shelving units, the fold down work platform is very safe and convenient. Whenever not being utilized, this accessory could be easily folded and after that stored out of the way. It consists of a long chain, a ratchet lock, and a checker floor plate platform with hook in order to connect the platform to the work truck. This platform is made of welded steel and like many various attachments, has the blue powder coat finish to last long.
