

Cascade Clamp

Cascade Clamp - Founded in Portland, Oregon in the year 1943, the Cascade Manufacturing Company started as a small machine shop employing only 4 individuals. Overall sales for that year amounted to about \$60,000. The very first recorded sales revenues involved the machining and assembly of stainless-steel pipe fittings, valves and other components. Through five years of operation, the company had stretched to 40 staff and their yearly sales volume had risen to \$330,000. Now, Cascade is among the top international producers within the material handling trade.

Design and manufacturing of the company's very first hydraulic cylinder allowed this new business to aggressively pursue new business opportunities. Throughout the last 60 years, the industry of material handling has developed into a very advanced field with Cascade proudly playing a part in its development. Cascade at present continues to develop as the best supplier of lift truck accessories and different associated items. The business feels assured in their capability to continue to lead the way within the business by understanding customer's requirements in the future and remaining aggressive in the international market.

All through the nineteen fifties, Cascade began to make, design, and promote its hydraulic accessories. A new facility was made in the year 1956, so as to accommodate all plant operations and offices in Portland, Oregon, which is still the company's current head office. Subsequent to 15 years of business, total employees reached 180 staff and sales had reached almost \$2,300,000.

In the year 1959 in Springfield, Fullerton a second production facility was built. The year 1960 marked Cascade's initial transfer into the global world of the material handling industry when the business established interest in England, Australia, and the Netherlands.

In the year 1964, the company altered its name to the Cascade Corporation. Afterward in 1965, the business went public with an initial offering of 200,000 shares of common stock. Ever since then the company has expanded its manufacturing facilities throughout the continental US to the locations Warner Robins Georgia to go along with its already existing plants in Portland, Oregon and Springfield, Fullerton. Cascade products are fabricated internationally thanks to lots of subsidiary operations. In the year 1944, a brand new facility was accomplished in Almere, the Netherlands which is Cascade's European headquarters. This plant is made to be the ultimate customer service centre.

Cascade further expanded their product base in the year 1996 and the year 1997 subsequent to acquiring five companies, which included the Kenhar Corporation, the international leader in blades.
