

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically activate to both unload and release as the bumper release touches the side of a dumpster. As soon as unloading is completed, the hopper is able to go back to original upright and locked position. This piece of machinery even comes together with a cable that allows operation from the seat of the lift truck in order to have the option of manually unloading the hopper. There is a locking chain provided to be able to lock the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish in order to maintain durability.
