

Clark Forklift Part

Clark Forklift Part - Presently, there are at least 350,000 Clark lift trucks performing worldwide, and more than 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of forklifts, with parts covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark has a unyielding objective to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the structure of "Lean Production" at all of its assembly facilities for the reason that this technique is extremely economical and enables minimal use of resources. Established to ensure maximum efficiency, this system is intended to find and acknowledge the most effective methods for production facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering agenda combines modern product development and provides improved customer support and service within the industry.
