

Meritor Parts

Meritor Parts - The Meritor Company is a leading global supplier established upon 100 years of custom of service and quality. Meritor specializes in integrated systems with various modules and components to the original equipment manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and feels that this particular energy contributes to their competitive advantage in the global operations. The company values all their customers and wants to ensure their success while anticipating their various requirements. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of knowledgeable experts.

By just hiring future focused individuals, Meritor strongly feels these top-caliber people would be able to quickly adapt to changing environments and exhibit the commitment and performance needed to be able to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers all of their staff various chances for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes axles, drivelines, suspension and braking systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 countries and in 5 different continents.

The supplier development network is specifically located so as to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within every part of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and implement lean methods.
